EXECUTIVE SUMMARY

Full Stack Developer with 5 years of experience building critical applications (ERPs, CRMs, high-performance landing pages). Specialized in optimizing performance, process automation, and scalability. Multiple projects with 100 PageSpeed Score, demonstrating commitment to quality. Stack: React, Next.js, Node.js, TypeScript, PostgreSQL. Approach focused on solving real problems with robust and efficient solutions.

APPROACH

End-to-End Development: Each project is developed solo, from concept to production, ensuring architectural consistency and unified vision. Responsible for: system architecture, UI/UX design, full stack development, deployment, and technical support.

TECHNOLOGIES & TOOLS

Languages: JavaScript, TypeScript, SQL

Frontend: React, Next.js, Vue.js, Tailwind CSS, Redux

Backend: Node.js, Express, NestJS, Prisma ORM, PostgreSQL, MySQL

Tools & DevOps: Docker, Git, VSCode, Caddy (reverse proxy)

Design: Photoshop, Illustrator

EDUCATION

Bachelor's Degree in Computer Science
PUC-GO | Completion: 2026

EXPERIENCE & PROJECTS

gopack.com.br)
January 2025 - Present (1 year) • Full Stack Developer

Challenge: Obsolete institutional system and ERP (20+ years old) caused operational slowdown, productivity loss, and difficulty tracking inventory and production line.

Solution developed:

- Responsive institutional website (100 PageSpeed Score) with history, portfolio, and contact form
- Complete ERP for inventory management and production line with process automation
- Internal performance dashboard with real-time KPIs
- Access control system with 5 permission levels for 30+ employees
- Company internal server with Docker and Caddy for secure deployment

Result: Implementation of automated workflows, eliminating repetitive manual tasks. System used by entire operational team.

Stack: Node.js, React, Next.js, TypeScript, Prisma ORM, PostgreSQL, Docker, Redux, Tailwind CSS

caionogueira.vercel.app)
2025 (2 weeks) • Full Stack Developer (Freelancer)

Challenge: Client without platform to display, promote, and manage personalized drinks portfolio.

Solution developed:

- Landing page with visual gallery of drinks and customer reviews (100 PageSpeed Score)
- Admin panel to add/edit drinks, characteristics, and reviews
- Intelligent filtering system for better UX

Result: Client successfully increased online visibility and manages portfolio autonomously.

"Perfect work, met all my expectations and exceeded them! Extremely happy with the result and practicality" - Caio Nogueira

Stack: Node.js, TypeScript, React, Next.js, Tailwind CSS, Prisma ORM, PostgreSQL

portfolio-ana-carol.vercel.app)
2025 (2 weeks) • Full Stack Developer (Freelancer)

Challenge: Branding consultant without platform to display completed work and acquire new clients.

Solution developed:

- Landing page with visual portfolio, case studies, and reviews (100 PageSpeed Score)
- Integrated CRM to add/manage projects, history, and testimonials
- SEO optimized for better search rankings

Result: Fully functional and performant client acquisition tool.

"The work was very well done with great attention to detail. Caio is very creative and dedicated, always seeking to improve design and functionality. LOVED it and I recommend!" - Ana Carolina

Stack: Node.js, TypeScript, React, Next.js, Tailwind CSS

desapegoafilaanda.pages.dev)
2025 (2 weeks) • Full Stack Developer (Freelancer)

Challenge: Store without digital platform for sales and customer management via WhatsApp.

Solution developed:

- E-commerce with visual product catalog
- Integrated CRM to manage customers and purchase history
- WhatsApp integration for direct customer communication
- Admin dashboard for sales and inventory control

Result: Complete platform for online sales and customer relationship management via WhatsApp.

Stack: Node.js, TypeScript, React, Next.js, Tailwind CSS, Prisma ORM

Schoolink - Educational Platform (Senior Thesis)
July 2024 - June 2025 (1 year) • Full Stack Developer (Academic Project)

Challenge: Traditional school systems are confusing and inefficient, making it difficult for parents and teachers to track student performance.

Solution developed:

- Intuitive dashboard with differentiated access by profile (students, teachers, parents, coordinators)
- Real-time student performance tracking system
- Centralized school document management
- Secure authentication with role-based access control per user

Result: Complete educational platform improving communication between school, students, and parents.

Stack: React, Next.js, Tailwind CSS, Redux, PostgreSQL, Prisma ORM, NestJS, Express

LANGUAGES

Portuguese: Native

English: Advanced (reading, writing, and conversation)

TECHNICAL SKILLS & SOFT SKILLS

- Solving complex problems with focus on scalable solutions
- Clear communication with clients and stakeholders
